

ZODIAC

A coven of the most powerful Masters in the art of Black Magic has gained terrifying power. They have removed the mystical Signs of the Zodiac from the Time Vaults to cause awesome confusion. These twelve signs are scattered about the corridors of time.

The dreaded Masters have created numerous demons which populate the corridors and zealously guard the Signs of the Zodiac. A destructive force-field flows along the corridor boundaries. Any contact with either the corridor wall or the demons is fatal, resulting in the loss of a life and total disintegration.

Your task is to destroy the demons, collect the twelve mystical signs and return them to the time vaults. There are four hundred corridors to search, so beware - your enemies are continually multiplying. Shoot, and then run like hell - for that is where you are!

Instructions

You must travel through the corridors of time in search of the twelve mystical Signs of the Zodiac scattered far and wide by the most powerful Masters in the Black Arts.

There are nearly four hundred possible locations and the signs are guarded by three types of demon; Jessor, Jukul and Jufo. They will attack without provocation. Any direct contact with either the demons or the corridor walls will result in instant annihilation.

Alas, you cannot afford to stand still. You can only fire while in motion. When the twelve signs have been recovered you will be transported to the entrance of the Time Vaults. However, the Masters are greatly displeased : as you enter the time vaults they cause the signs that you have collected to disappear, only to reappear floating in the rarified atmosphere of the vaults, which are guarded by the most powerful demons of all - JEMON!

You must now retrieve the twelve different mystical Signs of the Zodiac and place them in the safety of the Central Chamber. You cannot shoot while carrying a sign : nor can you drop it, except into the Central Chamber. Take special care : JEMON is indestructible!
